

## Bill Marsh

Environmental Field Superintendent

bill.marsh@bjt-erm.com • linkedin.com/in/charles-bill-marsh

### EARLY CAREER

**Drilling & Completions Supervisor**

Globally & Remote Locations

**Environmental Coordinator**

Proacta Environmental Services

**Motors/Derrick/Drilling**

Kenting Drilling & Peter Bawden Drilling

### PROJECT HIGHLIGHTS

- Invented and Patented in Canada and the USA, the lock chock (thelockchock.com)
- Canadian Patent # 2,816,778, USA Patent # US 9,605,775 B2
- High pressure/High Temperature Exploration oil wells
- Drilled extended reach horizontal Gas and Oil wells
- Installed chrome completion strings in HPHT sour wellbores above 45% sour
- Experienced in well control situations & well control techniques
- Used multiple mud systems (Invert/Brine/Silicate/)
- Drilled and completed critical sour wells
- Negotiated with property owners and lease holders for environmental projects

### EXPERTISE

**Environmental**

Lined up land and water for the drilling rigs, tested all fluids to be land spread

**Drilling**

Supervised drilling of 15-18,000FT HPHT exploration oil wells. 3000HP with 15k BOP with Blind Shear rams. Up to 20lb+ mud with total losses in some formations. Multiple casing strings - 30" down to 5" liner then 7" tieback to surface.

**Completions**

Assigned to a 2000hp work over rig with 15k BOP with Blind Shear rams, tested & completed HPHT exploration oil wells from 14,000 to 18,000 feet. Supervised singles, doubles, slant rig, coil rigs & triples globally.
